

Beyond the sale - building a collaborative community.

Give clients reasons to return, learn, and refer.

Loyalty lost in the shuffle.

Clients book on WhatsApp, pay elsewhere, and perks vanish in the mix.

Referral codes, punch cards, and discount emails all live in different silos.

With no single view, it's hard to spot who comes back—or why they don't.

Collaborating with other mentors means juggling even more tools.

Our expertise shines, but loyalty gets buried in chats, codes, and links.
When rewards hide, clients slide—and collaborations stall.

Turn every interaction into a loyalty token.

Hand out a digital loyalty token when a client books, buys, or refers—no new app, no code.

The token lives on your client's phone link, tracking sessions and purchases in one place.

Fellow mentors & integrators can honor the same loyalty token for bonus perks, multiplying everyone's reach.

Keep your current booking or payment tools—tokens plug in, not replace.

A quick QR scan drops a loyalty token into your client's pocket. Now you - and any partner you choose - can recognise and reward that loyalty instantly, without adding extra tech.

Local loyalty that multiplies.

Loyal customers spend 43 % more with the businesses they trust. northbaybusinessjournal.com

When rewards work across nearby shops & services, repeat visits jump by up to 35 %. clavaa.com

Any neighbor business can join—open badges drop into their current tools in minutes, no fees.

Every new partner adds fresh perks to the tokens you already hand out, turning one-time clients into community regulars.

Your customers already spend 43 % more once they feel loyal. When your badge unlocks perks at the yoga studio next door—or the bike shop across the street—those visits rise another 35 %. Open tokens make loyalty a shared win for every local business.

What's coming next

Month 1

Launch pilot badges at 20 nearby businesses.
Clients start flashing the same token across cafés, studios, and repair shops.

Month 3

Open self-serve badge portal.
You issue tokens in 30 s, edit perks, and invite partners without our help.

Month 6

Introduce “perk bundles.”
Combine your lesson token with a neighbor’s discount—one redemption, two smiles.

Month 9

Add simple referral links.
Clients share your badge with friends; you see new faces plus an auto “thank-you” perk for the referrer.

Year 1

In-chat badge wallet.
Tokens pop up right inside your customer chats—zero links, ultra-low friction.
