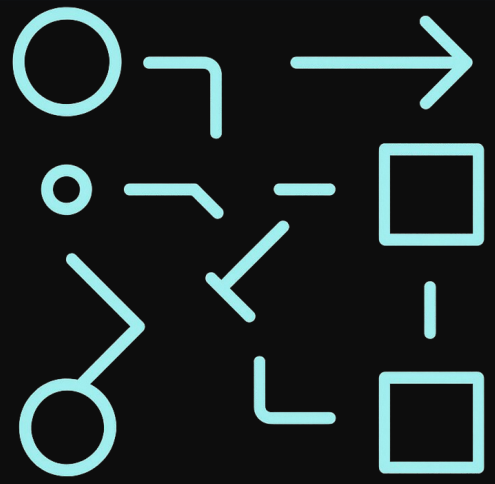
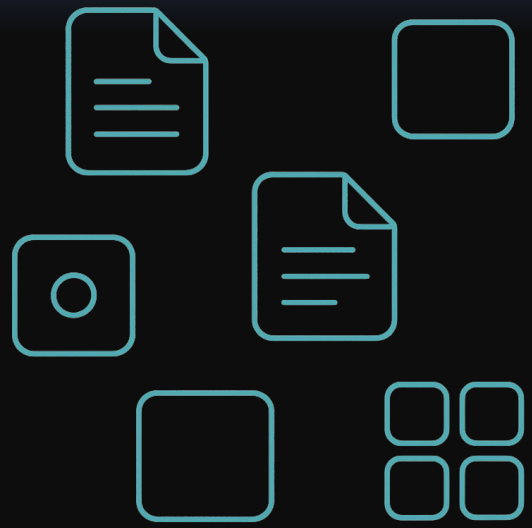
la plataforma que me conecta

ORGANIZING BUSINESSES INTO STRUCTURED, FUTURE-READY SYSTEMS THAT ENABLE REAL INNOVATION.



Operations are **messy**



Data is **scattered**

Centralized systems **block** innovation

Phase 1 — Structure & Onboarding (NOW)

Organizing Academia Vishneva and its 60 students.

- Automated check-ins, attendance, user actions
- Debugging Typebot / n8n / Telegram flows
- Ambassador integrators onboarding & testing
- Data structure finalized for real use

Phase 2 — Ambassador Program (Next 30 Days)

Ambassadors train and onboard remaining students.

- 30-day testing period
- Ambassadors validate flows and UX
- Finalize data behaviors and rules
- Capture real behavior to define tokenomics

Phase 3 — Tokenomics & Collaborator Testing

Begin token exchange with 4 commercial collaborators.

- Calibrate value → effort → reward
- Define redemption rules ready for smart contracts
- Validate cross-business behavior
- Simulate AVT → FGT → SOL exchanges (off-chain first)

Phase 4 — Expand the Micro-Economy

Launch a cluster of 25 principal collaborators + their networks.

- Add more academies, cafés, clinics, gyms, tech shops
- Activate multi-collaborator token flows
- Prepare standardized rules for ASA minting
- Connect structured data to Algorand contracts
